

# MEDICATION PERMISSION FORM

Dear Parents & Guardians

Students who are on medication need to bring the medication in the original container (with student's name, Chemist and Doctor's names clearly visible) and the medication register must be signed by a parent/guardian or responsible adult. It must **not** be delivered via a student. This medication will be placed in the general office and administered at the correct times.

Any changes to medication will need to be written on the "Medication Register" at the General Office.

Students who need to have Asthma pumps at school should leave them at the Office clearly labeled with name, year level and medication use by date.

Parents/Guardians need to complete an Asthma Management Plan for their child and return it to the General Office. The Asthma Management Plan forms are available from the Office.

Thanking you for your support.

---
